

Consolidated Financial Statements of

MONUMENT MINING LIMITED

June 30, 2010 and 2009

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The accompanying consolidated financial statements of Monument Mining Limited have been prepared by management in accordance with Canadian generally accepted accounting principles. The financial information contained elsewhere in this report has been reviewed to ensure consistency with the financial statements.

Management maintains systems of internal controls designed to provide reasonable assurance that the assets are safeguarded, all transactions are authorized and duly recorded, and financial records are properly maintained to facilitate the preparation of financial statements in a timely manner. The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and is ultimately responsible for reviewing and approving the financial statements. The Board carries out this responsibility principally through its Audit Committee.

The Audit Committee of the Board of Directors has reviewed the consolidated financial statements with management and the external auditors. Smythe Ratcliffe LLP, an independent firm of chartered accountants appointed as external auditors by the shareholders, have audited the consolidated financial statements and their report is included herein.

AUDITORS' REPORT

TO THE SHAREHOLDERS OF MONUMENT MINING LIMITED

We have audited the consolidated balance sheets of Monument Mining Limited as at June 30, 2010 and 2009 and the consolidated statements of operations and deficit and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at June 30, 2010 and 2009 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

Supplemental Cash Flow Information (note 18)

See accompanying notes to consolidated financial statements.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

1. Organization and Nature of Operations

Monument Mining Limited (the "Company") is a natural resource company engaged in the acquisition, exploration, development and operation of gold mineral property interests. Its primary activities include construction and operation of a 1,200 tpd ("tonnes of ore per day") gold treatment plant at the 100% owned Selinsing Gold Project ("Selinsing") and exploration on the 100% owned Damar Buffalo Reef exploration prospect (note 8). The Company's head office is located in Vancouver, BC, Canada. Its gold project operations, exploration and development activities are carried out in Malaysia through its wholly owned subsidiaries.

Although the Company has extracted gold from operations on Selinsing to June 30, 2010, the Company continues to operate in the development stage as the open pit mine has not substantially been put into service. The production phase of an open pit mine commences when the entire gold treatment plant, or both circuits of the plant are fully commissioned and minerals are produced in a saleable form in a sustainable manner. To June 30, 2010, the Company has not yet attained these conditions on Selinsing.

2. Significant Accounting Policies

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP") with the Canadian dollar as the functional and reporting currency.

a. Basis of presentation

The consolidated financial statements include the accounts of the Company and its wholly-owned integrated Malaysian subsidiaries: Polar Potential Sdn. Bhd., Able Return Sdn. Bhd., Selinsing Gold Mine Manager Sdn. Bhd. and Damar Consolidated Exploration Sdn. Bhd. All material intercompany balances and transactions have been eliminated on consolidation.

b. Use of estimates

The preparation of financial statements in conformity with Canadian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as at the balance sheet date, and the reported amounts of revenues and expenses during the reporting period. Significant estimates made in the preparation of these financial statements include determining accrued liabilities, valuation of inventory, valuation of mineral property interests, estimates of useful lives of property, plant and equipment, estimates required to determine whether impairment of long lived assets is required, determination of asset retirement obligations and environmental obligations, estimations made in determining fair value of foreign currencies forward contracts, assumptions used in calculating fair-value of Agents' options, share purchase warrants and stock-based compensation, allocation of proceeds between common shares and warrants in unit offerings, and valuation allowance for future income tax assets. While management believes the estimates are reasonable, actual results could differ from those estimates used in the preparation of the financial statements and could impact future results of operations and cash flows.

c. Cash and cash equivalents

Cash and cash equivalents consist of cash and highly liquid investments, with an original term to maturity of one year or less, that are readily convertible to known amounts of cash.

d. Inventory

Inventory classifications include supplies, stockpiled ore, work in progress and finished goods. All inventories are recorded at the lower of cost and net realizable value determined by reference to current resource pricing. The stated value of all inventories include direct mining and processing costs, and attributable overhead and depreciation.

Supplies inventory consists of consumables used in mining and processing operations and are valued at the lower of cost and net realizable value using the first-in-first-out method.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

2. Significant Accounting Policies (continued)

Stockpiled ore represents material that has been extracted from the mine and is ready for further processing. Stockpiled ore is measured by estimating the number of tonnes added and removed from the stockpile and is verified based on period surveys. Stockpiled ore is valued based on the current mining costs (including depreciation and amortization) incurred up to the point of stockpiling the ore using the average cost method. Costs include direct labour, mine-site overhead, and depreciation and depletion on Selinsing mine equipment and mineral properties.

Work in progress represents gold in the processing circuit that has not completed the production process. Work in progress is recorded at average cost. Costs include direct labour, mine-site overhead, and depreciation and depletion on Selinsing mine equipment and mineral properties.

Finished goods inventory is metal available for sale and is valued at the lower of average production cost and net realizable value.

e. Property, plant and equipment

Property, plant and equipment are recorded at cost, and amortization begins when the asset is substantially put into service. Amortization is calculated on a straight-line basis over the assets' estimated useful lives at the following annual rates:

| | |
|---|-----------|
| Buildings | 2% |
| Furniture and equipment | 10% |
| Computers | 20% - 45% |
| Vehicles (including vehicles under capital lease) | 20% |
| Construction costs | 5% to 20% |

Equipment used in exploration and development of mineral property interests is amortized, but the amortization charge is deferred with other mineral property interests, exploration and development expenditures. Amortization of equipment not specifically related to the Company's exploration and development activities is included in the consolidated statements of operations and deficit.

Construction costs related to the Selinsing Gold Mine Project are recorded at cost. On completion, the cost of construction is transferred to the appropriate category of property, plant and equipment. No amortization is calculated until the assets are substantially put into service. During the year-ended June 30, 2010, the gravity circuit of the mine was substantially complete and its various components are amortized at rates between 5% and 20% straight-line.

f. Impairment of long-lived assets

The Company monitors the recoverability of long-lived assets, including property, plant and equipment, based on factors such as current market value, future asset utilization, business climate and future undiscounted cash flows expected to result from the use of the related assets. The impairment loss is recorded in the period when it is determined that the carrying amount of the asset may not be recoverable. The amount of loss is measured as the excess of the carrying value of the asset over its fair value.

g. Mineral property interests

The Company capitalizes all costs related to investments in mineral property interests on a property-by-property basis. Such costs include mineral property interest acquisition costs and exploration and development expenditures, net of any recoveries. These deferred expenditures will be amortized over the estimated life of the property following commencement of commercial production, or written off if the property is sold, allowed to lapse, abandoned or when impairment in value is determined to have occurred.

Mineral property interest acquisition costs include the cash consideration, the fair value of common shares issued for mineral property interests and the fair value of warrants issued determined using the Black-Scholes option pricing model.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

2. Significant Accounting Policies (continued)

During the development of a mine, prior to the commencement of production, costs incurred to remove overburden and other mine waste materials in order to access the ore body at Selinsing open pit operations ("stripping costs") are capitalized to the related property and depleted over the productive life of the mine using the unit-of-production method. During the production phase of a mine, stripping costs are accounted for as variable production costs and included in the cost of inventory produced during the period except for stripping costs incurred to provide access to sources of reserves that will be produced in future periods and would not otherwise have been accessible, which are capitalized to the cost of mineral property interests and depleted on a unit-of-production method over the reserves that directly benefit from the stripping activity.

When a mine construction project moves into the production stage, the capitalization of certain mine costs ceases and costs are either charged to inventory or expensed. Mining costs incurred to stockpile ores for production are charged to inventory.

All capitalized costs are reviewed, on a property-by-property basis, to consider whether there are any conditions that may indicate impairment. Mineral property interests are reviewed at least annually or when otherwise appropriate for impairment or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. When the carrying value of a property exceeds its net recoverable amount (as estimated by quantifiable evidence of an economic geological resource or reserve or by reference to option or joint venture expenditure commitments) or when, in the Company's assessment, it will be unable to sell the property for an amount greater than the deferred costs, the property is written down for the impairment in value.

From time to time, the Company may acquire or dispose of a mineral property interest pursuant to the terms of an option agreement. As such options are exercisable entirely at the discretion of the optionees, the amounts payable or receivable are not recorded at the time of the agreement. Option payments are recorded as property costs or recoveries when the payments are made or received.

h. Income taxes

Income taxes are accounted for using the asset and liability method. Under this method, future income tax assets and liabilities are determined based on differences between the financial statement carrying values and their respective income tax bases. The amount of future income tax assets recognized is limited to the extent that they are considered, more likely than not, to be realized. Future tax assets and liabilities are measured using enacted or substantively enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on future tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the date of enactment or substantive enactment.

i. Loss per share

Basic loss per share is calculated using the weighted average number of common shares outstanding during the period.

Diluted loss per share is calculated using the treasury stock method. Under the treasury stock method, the weighted average number of shares outstanding used in the calculation of diluted loss per share assumes that the deemed proceeds received from the exercise of stock options, agents' options, share purchase warrants and similar instruments that are "in the money" would be used to repurchase common shares of the Company at the average market price during the year. Common share equivalents consisting of stock options and warrants are not considered in the computation of diluted loss per share where their effect would be anti-dilutive.

Shares held in escrow, other than where their release is subject to the passage of time, are not included in the calculation of the weighted average number of common shares outstanding.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

2. Significant Accounting Policies (continued)

j. Stock-based compensation

The Company accounts for stock purchase options granted to directors, employees and consultants and other stock-based payments using the fair value based method. Under this method, compensation expense for options granted is determined based on estimated fair values of the options using the Black-Scholes option pricing model. For employees and directors, the fair value of the options is measured at the time of grant. For non-employees the fair value of the options is measured at the time of grant if they are fully vested and non-forfeitable, or the earlier of the date the performance is completed or the performance commitment is reached. The cost is recognized over the vesting or service period of the respective options and, with a corresponding increase to contributed surplus, is either capitalized to mineral property interests for grants to individuals working directly on mineral projects, capitalized to construction costs for grants to individuals working directly on construction of Selinsing or charged against operations otherwise. When stock options are exercised, the corresponding fair value is transferred from contributed surplus to share capital.

k. Asset retirement obligation ("ARO")

The Company recognizes an estimate of the liability associated with an ARO in the financial statements at the time the liability is incurred. The estimated fair value of the ARO is recorded as a long-term liability, with a corresponding increase in the carrying amount of the related asset. The capitalized amount is depleted on the basis and at rates consistent with the corresponding asset. The liability amount is increased each reporting period due to the passage of time and the amount of accretion is charged to earnings in the period or capitalized to the cost of the corresponding assets until the assets are substantially put into use. The ARO can also increase or decrease due to changes in the estimates of timing of cash flows or changes in the original estimated undiscounted cost. Actual costs incurred upon settlement of the ARO are charged against the ARO to the extent of the liability recorded.

l. Revenue recognition

The Company's operations produce gold in dore form, which is refined to pure gold bullion prior to sale primarily in the London spot market or under gold sale contracts. Revenue from the sale of metals is recognized in the financial statements when the following conditions are met: persuasive evidence of an arrangement exists; title and risk passes to buyer, the price is fixed or determinable; and collectability is reasonably assured.

Revenue from gold sales is charged against construction when generated from commissioning of the plant; to mineral properties when generated from pre-commercial production; and to operations when generated from commercial production. Revenue generated from by-product such as silver is recognized in the same manner, however, is credited to the cost of goods sold when its percentage of revenue is less than 5% of total revenue.

m. Foreign currency translation

Monetary assets and liabilities are translated into Canadian dollars at exchange rates in effect at the balance sheet date. Non-monetary assets and liabilities are translated at the exchange rates prevailing at the time of acquisition or assumption unless such items are carried at market, in which case they are translated at the exchange rates in effect at the balance sheet date. Interest income and operating expenses are translated at the exchange rates prevailing on the transaction date. Gains or losses on translation are recorded in the statement of operations.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

2. Significant Accounting Policies (continued)

n. Financial instruments

The Company's financial instruments consist of cash and cash equivalents, restricted cash, forward contracts, accounts receivable (excluding refundable taxes) and accounts payable and accrued liabilities.

Financial instruments are classified into one of five categories: held-for-trading, held-to-maturity investments, loans and receivables, available-for-sale financial assets or other financial liabilities. All financial instruments are measured at fair value on initial recognition and recorded on the balance sheet. Subsequent measurement and changes in fair value depend on their initial classification as follows: held-for-trading financial assets and liabilities are measured at fair value and changes in fair value are recognized in net income. Available-for-sale financial assets are measured at fair value with changes in fair value recorded in other comprehensive income. When a decline in the fair value of an available-for-sale financial asset has been recognized in comprehensive income, and there is objective evidence that the impairment is other than temporary, the cumulative loss that had been previously recognized in accumulated other comprehensive income is removed from accumulated other comprehensive income and recognized in net income even though the financial asset has not been de-recognized. Loans and receivables, held-to-maturity investments and other financial liabilities are measured at amortized cost.

The Company employs foreign exchange forward contracts from time to time to mitigate the risk of changes in currency exchange rates between the Canadian dollar and Malaysian ringgit. The Company does not apply hedge accounting and accordingly changes in fair value of the contracts are recorded in net income in the period they occur. The fair value of those contracts is estimated by reference to quoted market prices for actual or similar instruments where available.

Transaction costs that are directly attributable to the acquisition or issuance of financial instruments that are classified as other than held-for-trading, which are expensed as incurred, are included in the initial carrying value of such instruments.

o. Warrants

Share issuances that include a warrant are bifurcated into a share and warrant component for accounting purposes. The share and warrant components are bifurcated by allocating unit proceeds equal to the market price of the Company's stock to the share component and the residual amount of the unit proceeds to the warrant component. The warrant component is recorded in contributed surplus and is transferred to capital stock upon exercise of the underlying warrant.

p. Capital leases

The costs of assets acquired under capital leases are capitalized and amortized over their useful lives. An offsetting liability is established to reflect the future obligation under capital leases. This liability is reduced by future principal payments.

3. Adoption of Accounting Policies and Future Accounting Changes

Effective July 1, 2009, the Company adopted the following new accounting standards issued by the Canadian Institute of Chartered Accountants ("CICA"). As required by the transitional provisions of these new standards, these standards have been adopted with no restatement of prior period financial statements.

Section 3855, "Financial Instruments - Recognition and Measurement" was amended to clarify the application of the effective interest method following an impairment loss of an investment in a debt instrument. This clarification applies to investment in debt instruments classified as held-to-maturity and to those classified as available for sale. Section 3855 also clarified the situation where the embedded prepayment option is considered closely related and therefore, is not separated from the host debt instrument for recognition purposes. The adoption of this amendment had no impact on the Company's financial statements.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

3. Adoption of Accounting Policies and Future Accounting Changes (continued)

Section 3862 – “Financial Instruments - Disclosures” was amended to require disclosures about the inputs to fair value measurements, including their classification within a hierarchy that prioritizes the inputs to fair value measurement. In the year of adoption, comparative figures are not required. The three levels of the fair value hierarchy are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 – Inputs other than quoted prices that are observable for the assets or liability either directly or indirectly; and
- Level 3 – Inputs that are not based on observable market data.

Management has evaluated the impact of these new accounting standards and determined the additional disclosures are not required as the Company has no financial instruments at June 30, 2010 which qualify.

Section 3064, “Goodwill and Intangible Assets” replaced Section 3062, “Goodwill and Other Intangible Assets” and Section 3450, “Research and Development Costs” in February 2008. This section establishes revised standards for the recognition, measurement, presentation and disclosure of goodwill and intangible assets. The new standard also provides guidance for the treatment of pre-production and start-up costs and requires that these costs be expensed as incurred. The Company adopted these changes with no impact on its consolidated financial statements. The adoption of this section had no impact on the Company’s financial statements.

Future accounting changes

Business combinations

In January 2009, the CICA issued Section 1582, “Business Combinations”, Section 1601, “Consolidated Financial Statements”, and Section 1602, “Non-Controlling Interests”. These sections replace former Section 1581, “Business Combinations”, and Section 1600, “Consolidated Financial Statements”, and establish a new section for accounting for a non-controlling interest in a subsidiary.

Sections 1582 and 1602 will require net assets, non-controlling interests and goodwill acquired in a business combination to be recorded at fair value and non-controlling interests will be reported as a component of equity. In addition, the definition of a business is expanded and is described as an integrated set of business activities and assets that are capable of being managed to provide a return to investors or economic benefits to owners. Acquisition costs are not part of the consideration and are to be expensed when incurred. Section 1601 establishes standards for the preparation of consolidated financial statements. These new sections apply to interim and annual consolidated financial statements relating to fiscal years beginning on or after January 1, 2011. Earlier adoption of these sections is permitted as of the beginning of a fiscal year. All three sections must be adopted concurrently.

International Financial Reporting Standards (“IFRS”)

In February 2008, the Accounting Standards Board announced that 2011 is the changeover date for publicly-listed companies to apply IFRS. The changeover is effective for interim and annual financial statements for fiscal years beginning on or after January 1, 2011. The effective date will require the restatement of comparative amounts reported by the Company for the year ending June 30, 2011. The Company has commenced the process to transition from current Canadian GAAP to IFRS. The transition process consists of diagnostic phase; impact analysis, evaluation and design phase; and implementation and review phase.

4. Restricted Cash

| | 2010 | 2009 |
|--|------------|-----------|
| Foreign Exchange Line Account (a) | \$ - | \$ 50,000 |
| Bank Guarantee for customs clearance (b) | 16,325 | 23,149 |
| Letter of Credit and payment guarantee for equipment (c) | 168,633 | - |
| | \$ 184,958 | \$ 73,149 |

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

4. Restricted Cash (continued)

- a. The Company entered into a series of foreign exchange forward contracts (the "Contracts") in 2009 and was required to hold a cash deposit equivalent to 10% of outstanding contract commitments in its foreign exchange line account as security against the Contracts. As at June 30, 2010, the Company had no forward contracts on hand (2009 - \$500,000 forward contracts on hand requiring a \$50,000 security deposit).
- b. The Company has lodged cash in the amount of \$16,325 (2009 - \$23,149) to meet customs clearance requirements. The cash is backed by a bank facility with a limit of \$327,600 (RM1,000,000).
- c. The Company has entered into agreements restricting cash of \$168,633 (2009 - \$nil) for payment on agitators and power supply equipment.

5. Inventory

| | 2010 | 2009 |
|--|--------------|------|
| Mine operating supplies | \$ 429,028 | \$ - |
| Stockpiled ore | 3,075,124 | - |
| Material discharged from ball mill for CIL process | 1,068,702 | - |
| Work in progress | 245,745 | - |
| | \$ 4,818,599 | \$ - |

6. Financial Instruments and Financial Risk Exposure

a. Financial Assets and Liabilities

The Company's financial instruments consist of cash and cash equivalents, restricted cash, forward contracts, accounts receivable (excluding refundable taxes) and accounts payable and accrued liabilities.

The Company has classified its cash and cash equivalents and restricted cash as held-for-trading. Accounts receivable (excluding refundable taxes) are classified as loans and receivables. Accounts payable and accrued liabilities are classified as other liabilities.

The carrying amounts of cash and cash equivalents, restricted cash, accounts receivable (excluding refundable taxes) and accounts payable and accrued liabilities are considered to be reasonable approximations of their fair values due to the short-term nature of these instruments.

The value of the forward contract has been adjusted to fair value based on quoted market prices.

The carrying values of financial assets by category at June 30, 2010 and 2009 are as follows:

| Financial assets | Held-for-trading | | Loans and receivables | |
|--|------------------|--------------|-----------------------|-----------|
| | 2010 | 2009 | 2010 | 2009 |
| Cash and cash equivalents | \$ 3,949,183 | \$ 6,109,453 | \$ - | \$ - |
| Restricted cash | 184,958 | 73,149 | - | - |
| Forward contracts | - | 10,103 | - | - |
| Accounts receivable (excluding refundable taxes) | - | - | 1,943,529 | 18,752 |
| | \$ 4,134,141 | \$ 6,192,705 | \$ 1,943,529 | \$ 18,752 |

The Company's cash equivalents bear interest at rates between 0.60% to Prime less 2.00% (2009 - Prime less 2.00% to 2.65%) and mature between July 14, 2010 and September 12, 2010 (2009 - July 16, 2009 and September 11, 2009). The instrument maturing July 14, 2010 in the amount of \$34,500 was renewed to July 13, 2011 bearing interest at Prime less 1.85% and the remaining instruments were redeemed subsequent to year-end.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

6. Financial Instruments and Financial Risk Exposure (continued)

a. Financial Assets and Liabilities

The carrying values of financial liabilities by category at June 30, 2010 and 2009 are as follows:

| Financial liabilities | Other liabilities | |
|--|-------------------|--------------|
| | 2010 | 2009 |
| Accounts payable and accrued liabilities | \$ 3,844,291 | \$ 2,095,964 |

b. Financial Instrument Risk Exposure

The Company's financial instruments are exposed to certain financial risks, including market risk, credit risk, and liquidity risk.

(i) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is comprised of three types of risk: foreign currency risk, price risk and interest rate risk.

Currency risk

The Company is exposed to foreign currency risk to the extent expenditures incurred or funds received by the Company are not denominated in Canadian dollars. Proceeds from gold sales are in US dollars. The majority of the Company's expenditures related to the mine operations and mineral property interests are in Malaysian ringgit, US dollars and Australian dollars. The Company's ability to generate revenue and to make payments to satisfy its obligations will be affected by foreign currency rate fluctuations. The Company is also exposed to foreign currency risk to the extent that it holds cash in Malaysian ringgit and US dollars.

As at June 30, 2010 and 2009, the Company is exposed to currency risk through the following assets and liabilities denominated in Malaysian ringgit:

| In thousands | 2010 | | 2009 | |
|--|----------|---------|---------|---------|
| | RM | CDN | RM | CDN |
| Cash and cash equivalents | 383 | 125 | 6,590 | 1,187 |
| Restricted cash | 565 | 185 | 221 | 73 |
| Forward contracts | - | - | 31 | 10 |
| Accounts receivable | 8 | 3 | 13 | 4 |
| Deposits and advances | 260 | 85 | 2,892 | 956 |
| Accounts payable and accrued liabilities | (10,464) | (3,428) | (5,749) | (1,901) |

Based on the above net exposures as at June 30, 2010, and assuming that all other variables remain constant, a 5% depreciation or appreciation of the Malaysian ringgit against the Canadian dollar would result in an increase/decrease of approximately \$151,000 (2009 – \$66,000) in the Company's net losses.

As at June 30, 2010 and 2009, the Company is exposed to foreign currency risk through the following assets denominated in US dollars:

| In thousands | 2010 | | 2009 | |
|--|-------|-------|------|-----|
| | US\$ | CDN | US\$ | CDN |
| Cash and cash equivalents | 3,354 | 3,545 | - | - |
| Accounts receivable | 1,815 | 1,932 | - | - |
| Accounts payable and accrued liabilities | (87) | (93) | - | - |

Based on the above net exposures as at June 30, 2010, and assuming that all other variables remain constant, a 5% depreciation or appreciation of the US dollar against the Canadian dollar would result in an increase/decrease of approximately \$269,000 (2009 – \$nil) in the Company's net losses.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

6. Financial Instruments and Financial Risk Exposure (continued)

b. Financial Instrument Risk Exposure (continued)

During 2009, the Company entered into a number of foreign exchange forward contracts to reduce its exposure to foreign currency risk. The contracts obliged the Company to convert \$5,500,000 to Malaysian ringgits at predetermined exchange rates on a monthly basis from February to July 2009. For the year ended June 30, 2010, a total of \$500,000 (2009 – \$5,000,000) was settled for Malaysian ringgit under the forward contracts resulting in a loss of \$15,434 (2009 – \$61,245) comprised of a total realized loss of \$15,434 (2009 – total realized loss of \$51,023 and an unrealized mark-to-market loss of \$10,222). As at June 30, 2010, a total of \$nil (2009 – \$500,000) in forward contracts remain to purchase Malaysian ringgits.

Price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices other than those arising from interest rate risk or foreign currency risk.

As at June 30, 2010 and 2009, the Company is not exposed to other price risk.

(i) Market risk (continued)

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is subject to interest rate risk with respect to its cash equivalents and financial liabilities. However, this risk is limited because of the short-term maturity of these instruments. The Company's interest rate sensitivity analysis suggests they are not exposed to significant interest rate risk.

(ii) Credit risk

Credit risk is the risk of a loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The carrying amount of financial assets recorded in the financial statements, net of any allowances for losses, represents the Company's maximum exposure to credit risk.

The Company's credit risk is attributable to its liquid financial assets. The Company established an investment policy to avoid any investments other than government t-bills, term deposits guaranteed by major Canadian financial institutions, or term deposits at major Malaysian banks which are guaranteed by the Malaysian government. The Company's accounts receivable includes \$1,931,453 (2009 – \$nil) due from a single government-owned refinery in Western Australia. Credit risk on this receivable is negligible and the balance was collected subsequent to year-end.

The Company is exposed to concentration of credit risk with respect to cash and cash equivalents and restricted cash as \$3,854,711 is held with a single Malaysian financial institution. The remaining \$279,430 is held with various Canadian financial institutions.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk through budgeting and forecasting cash flows to ensure it has sufficient cash to meet its short-term requirements for operations, business development and other contractual obligations. The Company's cash and cash equivalents are highly liquid and immediately available on demand for the Company's use.

Contractual obligated cash flow maturities of financial liabilities as at June 30, 2010 are as follows:

| | Total | under 3 months | 4 to 12 months | 1 to 5 Years |
|--|--------------|-------------------|-------------------|-----------------|
| Accounts payable and accrued liabilities | \$ 3,844,291 | \$ 3,274,212 | \$ 570,079 | \$ - |

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

6. Financial Instruments and Financial Risk Exposure (continued)

b. Financial Instrument Risk Exposure (continued)

Contractual obligated cash flow maturities of financial liabilities as at June 30, 2009 are as follows:

| | Total | under 3 months | 4 to 12 months | 1 to 5 Years |
|--|--------------|-------------------|-------------------|-----------------|
| Accounts payable and accrued liabilities | \$ 2,095,964 | \$ 2,095,964 | \$ - | \$ - |

7. Property, Plant and Equipment

| 2010 | Cost | Accumulated amortization | Net book value |
|--------------------------------------|---------------|-----------------------------|----------------|
| Buildings | \$ 740,402 | \$ 21,401 | \$ 719,001 |
| Furniture and equipment | 415,727 | 63,816 | 351,911 |
| Computer | 270,948 | 68,106 | 202,842 |
| Vehicle | 201,340 | 84,413 | 116,927 |
| Heavy equipment | 1,278,355 | — | 1,278,355 |
| Construction costs - Selinsing | 15,054,669 | 214,583 | 14,840,086 |
| Deposit and advance for construction | 13,249 | — | 13,249 |
| | \$ 17,974,690 | \$ 452,319 | \$ 17,522,371 |

| 2009 | Cost | Accumulated amortization | Net book value |
|--------------------------------------|--------------|-----------------------------|----------------|
| Buildings | \$ 611,094 | \$ 6,593 | \$ 604,501 |
| Furniture and equipment | 374,207 | 18,472 | 355,735 |
| Computer | 141,220 | 22,038 | 119,182 |
| Vehicle | 201,340 | 44,145 | 157,195 |

| Construction costs - Selinsing | 6,179,932 | — | 6,179,932 |
| Deposit and advance for construction | 905,200 | — | 905,200 |
| | \$ 9,691,348 | \$ 91,248 | \$ 9,600,100 |

During the year ended June 30, 2010 the Company capitalized \$nil (2009 - \$94,984) in leased assets under vehicle. As at June 30, 2010 accumulated amortization on assets under capital lease totals \$37,994 (2009 - \$18,997).

On December 3, 2009, the Company entered a gold forward contract to finance the development of Selinsing for CDN\$2,150,550 (US\$2,025,000) to be settled for 2,250 ounces of gold by May 31, 2010. The parties to the contract later agreed to settle the contract for CDN\$2,845,954 (US\$2,715,875) and the Company incurred a loss of CDN\$695,403 (US\$690,578) on the contract. Given the contract was entered to finance the development of Selinsing, the loss on the contract was capitalized to construction costs.

Title to mineral properties

Although the Company has taken steps to verify the title to its mineral property interests, in accordance with industry standards for the current stage of exploration of such property interests, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defect. To the best of the Company's knowledge, titles to its properties are in good standing.

Realization of assets

The investment in and expenditures on mineral property interests comprise a significant portion of the Company's assets. Realization of the Company's investment in these assets is dependent upon the establishment of legal ownership, the attainment of successful production from the properties or from the proceeds of their disposal.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

8. Mineral Property Interests (continued)

Mineral exploration and development is highly speculative and involves inherent risks. While the rewards if an ore body is discovered can be substantial, few properties that are explored are ultimately developed into producing mines. There can be no assurance that current exploration programs will result in the discovery of economically viable quantities of ore.

Environmental

Environmental legislation is becoming increasingly stringent and costs and expenses of regulatory compliance are increasing. The impact of new and future environmental legislation on the Company's operations may cause additional expenses and restrictions. If the restrictions adversely affect the scope of exploration and development on the mineral properties, the potential for production on the property may be diminished or negated.

The Company is subject to the laws and regulations relating to environmental matters in all jurisdictions in which it operates, including provisions relating to property reclamation, discharge of hazardous material and other matters. The Company may also be held liable should environmental problems be discovered that were caused by former owners and operators of its properties and properties in which it has previously had an interest. The Company conducts its mineral exploration activities in compliance with applicable environmental protection legislation. The Company is not aware of any existing environmental problems related to any of its current or former properties that may result in material liability to the Company.

a. Selinsing Gold Property

The property is located in Pahang State, Malaysia. The Company acquired a 100% interest in the Selinsing Gold Property in 2007 and since has developed it towards a producing mine by building a 400,000 tonnes per annum capacity gold treatment plant consisting of a gravity circuit and a CIL (Carbon In Leach) circuit design to operate simultaneously. As at June 30, 2010, although the Company has commenced open pit mining on the property and gravity concentrate was generated through the gravity circuit and was transformed into gold dore through smelting, the commissioning of the CIL circuit has not yet been completed. The cyclone overflow was temporarily stored for further CIL process and accordingly, the Selinsing Gold Property has not reached the stage of full production. Subsequent to year-end, the Company completed the commissioning of the CIL circuit and commenced commercial production.

The Company generated recoveries (net of costs) of \$13,480,752 (2009 - \$nil) from the gravity circuit production during fiscal 2010.

b. Buffalo Reef Prospect

On June 25, 2007, the Company acquired 100% of the common shares of Damar Consolidated Exploration Sdn. Bhd. ("Damar"), a wholly-owned subsidiary of Avocet Mining PLC ("Avocet"), incorporated under the laws of Malaysia, thereby effectively acquiring 100% of the Buffalo Reef Tenement property interests, which lie continuously and contiguously along the gold trend upon which the Selinsing Gold Property is located.

The Company was obligated to fund a \$400,000 exploration program on the Buffalo Reef Tenement over two years. Avocet shall receive US\$12 per ounce of gold discovered on a notional 49% of the ounces discovered as a result of the \$400,000 two-year post closing exploration program. In fiscal 2009, Avocet terminated the Company's exploration payment obligation for consideration of \$1.

During the year ended June 30, 2010, the \$50,000 deposit on land acquisition related to the Famehub acquisition (note 8(c)) which was capitalized to mineral properties in 2009 was reclassified to deferred costs.

c. Famehub Acquisition

On January 14, 2008, the Company signed a Letter of Intent ("LOI") with Famehub Venture Sdn Bhd. ("Famehub"). Pursuant to the LOI, Famehub has agreed to sell and the Company has agreed to purchase a land package of approximately 32,000 acres of prospective exploration land and associated data base ("Famehub Exploration Land Acquisition"). This land is located to the east of Selinsing's Gold Project and Buffalo Reef exploration property.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

8. Mineral Property Interests (continued)

Subsequent to the year-end ended June 30, 2010, the parties entered into a formal "Agreement of Purchase and Sale of Shares" ("Famehub Acquisition") under which the Company agrees to purchase the above described assets, through its wholly owned subsidiary Damar Consolidated Exploration Sdn Bhd, by acquiring 100% of the issued and outstanding Famehub shares for \$1,500,000 cash and the issuance of 14,000,000 fully paid shares of the Company. The acquisition was completed subsequent to the year ended June 30, 2010, after closing the \$13 million financing transaction (notes 21(a) and (b)). A \$50,000 non-refundable deposit was paid to Famehub in 2009 (note 9 (a)).

9. Deferred costs

Deferred costs are comprised of the following:

- a. Deferred business acquisition cost: the Company has incurred \$14,981 in legal expenditures related to the Famehub Acquisition (notes 8(c) and 21(b)). In addition, \$50,000 which was incurred in 2009 was reclassified from mineral property interests to deferred costs in 2010 (note 8(c)).
- b. Deferred financing costs: the Company has incurred \$173,518 (2009 - \$nil) in legal and regulatory costs associated with the \$8,000,000 convertible notes and \$5,000,000 gold forward sale financing (note 21(a)).

10. Capital Lease Obligation

As at June 30, 2010 and 2009, the Company has three long-term leases on vehicles for its operations at rates ranging from 5.2% to 6.5%.

| Year ending June 30, | 2010 | 2009 |
|---------------------------------|-----------|-----------|
| 2010 | \$ - | \$ 18,032 |
| 2011 | 17,863 | 18,032 |
| 2012 | 17,863 | 18,032 |
| 2013 | 17,863 | 18,032 |
| 2014 | 15,872 | 16,023 |
| Total minimum lease payments | 69,461 | 88,151 |
| Amount representing interest | (7,257) | (11,308) |
| Obligation under capital leases | \$ 62,204 | \$ 76,843 |
| Less current portion | (14,723) | (14,050) |
| Balance, June 30, 2010 | \$ 47,481 | \$ 62,793 |

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

11. Asset Retirement Obligation

The Company's asset retirement obligation consists of reclamation and closure costs for mine development and exploration activities. Although the ultimate amount of reclamation costs to be incurred cannot be predicted with certainty, the total undiscounted amount of estimated cash flows required to settle the Company's estimated obligations is \$4.5 million. The present value of asset retirement obligations is \$2,566,438 (2009 - \$1,502,309) and is expected to be settled over the next ten years. This amount has been disclosed using a credit and inflation adjusted risk free rate of 10.0%. Significant reclamation and closure activities include land rehabilitation, decommissioning of tailing storage facilities, mined waste dump, road bridges, buildings and mine facilities.

Changes to the reclamation and closure cost balance during the 2010 and 2009 years are as follows:

| | 2010 | 2009 |
|--|--------------|--------------|
| Asset retirement obligation, beginning of year | \$ 1,502,309 | \$ 107,537 |
| Revision in estimate of liabilities | 929,390 | 1,394,772 |
| Accretion expense | 150,230 | - |
| Foreign exchange gain | (15,491) | - |
| Balance, end of year | \$ 2,566,438 | \$ 1,502,309 |

The revision in estimate of liabilities in 2010 and 2009 was the result of the development on Selinsing.

12. Share Capital

a. Authorized

Unlimited common shares without par value

b. Issued and outstanding:

| Common shares | Shares | Amount |
|--|-------------|---------------|
| Balance, June 30, 2008 | 77,395,025 | \$ 33,016,984 |
| Brokered and non-brokered private placement for cash (note 12(b)(i)) | 70,120,000 | 28,048,000 |
| Share issuance costs for private placement (note 12(b)(i)) | - | (2,907,245) |
| Shares issued for ball mill purchase (note 12(b)(ii)) | 8,125,003 | 3,250,001 |
| Balance, June 30, 2009 | 155,640,028 | \$ 61,407,740 |
| Shares issued for debt (note 12(b)(iii)) | 475,000 | 134,048 |
| Share issuance cost for debt (note 12(b)(iii)) | - | (1,170) |
| Balance, June 30, 2010 | 156,115,028 | \$ 61,540,618 |

(i) On July 21, 2008, the Company closed a private placement for total gross proceeds of \$28,048,000 by issuing 70,120,000 units at a price of \$0.40 per unit, each unit comprising one fully paid share of common stock and one common share purchase warrant entitling the holder to purchase one additional common share for \$0.50 for a three-year term from closing. Costs of the financing include a 10% agent fee in the amount of \$2,804,800 and legal and filing fees of \$79,389 and other cost of \$23,056.

(ii) On August 19, 2008, the Company purchased a 1.0 million tons per year capacity ball mill from Avocet. Consideration of \$3,250,001 for the mill was paid by the issuance of 8,125,003 units at \$0.40 per unit, at the same price and the same terms as the private placement disclosed above. Each unit is comprised of one share and one share purchase warrant exercisable at \$0.50 for three years from date of issuance. Avocet is a shareholder of the Company (note 14).

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

12. Share Capital (continued)

(iii) On September 25, 2009, the Company issued 475,000 Monument shares at approximately \$0.28 per share to settle a debt owing to Avocet in the amount of \$134,048. The transaction incurred costs of \$1,170 in filing fees.

c. Warrants

The continuity of share purchase warrants is as follows:

| | | | 12(b)(i) | 12(b)(ii) | Total |
|-----------------------------------|-----------|--------------|------------|-----------|-----------------|

(d) Stock options

The 2009 Stock Option Plan ("2009 Plan") is a fixed plan allowing 22,126,000 common shares of the Company to be granted to its directors, officers, employees and consultants. The number of shares reserved for issuance under the 2009 Plan shall not exceed 15% of the total number of issued and outstanding shares on a non-diluted basis. The total number of stock options granted during the year together with previously granted stock options shall not exceed, on a non-diluted basis, 6% for any one Optionee; 15% for Insiders as a group, 2% for any one Consultant; 2% for all Eligible Persons who undertake Investor Relations Activities. The previous 10% Rolling Stock Option Plan was automatically converted to the 2009 Plan. Under the 2009 Plan, 22,601,000 stock options were outstanding as at June 30, 2010, which included 475,000 stock options pending Shareholders' approval.

Stock option activity is as follows:

| | Number of common shares under option | Weighted average exercise price |
|------------------------|--------------------------------------|---------------------------------|
| Balance, June 30, 2008 | 4,370,000 | \$ 0.50 |
| Granted | 18,306,000 | \$ 0.38 |
| Forfeited | (3,000,000) | \$ 0.42 |
| Balance, June 30, 2009 | 19,676,000 | \$ 0.40 |
| Granted | 2,930,000 | \$ 0.30 |
| Forfeited | (5,000) | \$ 0.25 |
| Balance, June 30, 2010 | 22,601,000 | \$ 0.39 |

| \$ 0.30 | 500,000 | Jun 10, 2015 | 4.95 | - | - |
| Total | 22,601,000 | | 3.00 | 14,870,451 | \$ 0.40 |

The following table summarizes the stock options outstanding at June 30, 2009:

| Exercise Price | Options outstanding | | | Options exercisable | |
|----------------|-------------------------|--------------|-------------------------------|-------------------------------------|---------------------------------|
| | Number of common shares | Expiry date | Weighted average life (years) | Weighted average number exercisable | Weighted average exercise price |
| \$ 0.50 | 3,300,000 | Jul 05, 2012 | 3.02 | 3,300,000 | \$ 0.50 |
| \$ 0.58 | 70,000 | Feb 18, 2011 | 1.64 | 70,000 | \$ 0.58 |
| \$ 0.40 | 13,390,000 | Aug 15, 2013 | 4.14 | 2,715,569 | \$ 0.40 |
| \$ 0.50 | 400,000 | Dec 05, 2013 | 4.44 | 400,000 | \$ 0.50 |
| \$ 0.40 | 230,000 | Dec 05, 2013 | 4.44 | - | - |
| \$ 0.25 | 1,736,000 | Dec 05, 2013 | 4.44 | - | - |
| \$ 0.25 | 550,000 | Feb 09, 2014 | 4.62 | - | - |
| Total | 19,676,000 | | 4.00 | 6,485,569 | \$ 0.46 |

The exercise prices of all stock options granted during the year were equal to the closing market prices at the grant date. The options outstanding have various vesting dates that range from 0 to 3 years.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

12. Share Capital (continued)

During the year ended June 30, 2010, 2,930,000 options were granted to employees, consultants and a director (2009 – 15,851,000 options were granted to various directors and members of management). Using an option pricing model with the assumptions noted below, the estimated fair value of all options recognized during the years ended June 30, 2010 and 2009 have been reflected in the financial statements as follows:

| | For the years ended June 30, | |
|---|------------------------------|--------------|
| | 2010 | 2009 |
| Mineral property exploration and development | \$ 167,671 | \$ 338,255 |
| Property, plant and equipment | 101,764 | 136,378 |
| Administration and operation | 1,227,420 | 1,416,204 |
| Total compensation cost recognized in operations, credited to contributed surplus | \$ 1,496,855 | \$ 1,890,837 |

The weighted average assumptions used to estimate the fair value of options were:

| | June 30, 2010 | June 30, 2009 |
|-------------------------|------------------|------------------|
| Risk-free interest rate | 1.96% | 2.92% |
| Expected life | 3.4 years | 4.0 years |
| Expected volatility | 97% | 92% |
| Expected dividends | nil | nil |

The weighted average fair value of options granted during 2010 is \$0.17 (2009 - \$0.18).

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate.

(e) Agent's options

Continuity of Agent's options outstanding:

| Expiry date | Exercise price | Balance, June 30, 2008 | Expired | Balance, June 30, 2009 and 2010 |
|-------------|----------------|---------------------------|-------------|------------------------------------|
| 25-Jun-09 | \$0.50 | 1,994,800 | (1,994,800) | - |

Each Agent's option unit is comprised of one common share of the Company and one-half share purchase warrant exercisable at \$0.50 for two years until June 25, 2009 ("Agent's warrant"). Each Agent's warrant would allow the holder to purchase one common share at \$0.65 exercisable to June 25, 2009. As at June 30, 2009 and 2010, all Agent's options were expired.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

12. Share Capital (continued)

(f) Contributed surplus

| | Amount |
|--------------------------|--------------|
| Balance, June 30, 2008 | \$ 4,821,161 |
| Stock-based compensation | 1,890,837 |
| Balance, June 30, 2009 | \$ 6,711,998 |
| Stock-based compensation | 1,496,855 |
| Balance, June 30, 2010 | \$ 8,208,853 |

13. Loss Per Share

| | June 30, 2010 | June 30, 2009 |
|--|------------------|------------------|
| Net loss for the year | \$ 2,943,487 | \$ 3,498,950 |
| Weighted average number of common shares outstanding | 156,003,110 | 150,492,713 |
| Basic and diluted loss per share | \$ 0.02 | \$ 0.02 |

14. Related Party Transactions

| Related party | June 30, 2010 | June 30, 2009 |
|------------------------------|---------------|---------------|
| Avocet Mining PLC. (a) | \$ - | \$ 712,672 |
| Avocet Mining PLC. (b) | \$ - | \$ 134,048 |
| George Brazier, director (c) | \$ 60,000 | \$ 30,000 |
| Base Consultant (d) | \$ - | \$ 33,225 |

a. During the year ended June 30, 2009, the Company purchased a ball mill from Avocet, a shareholder of the Company, for consideration of \$3,250,001 by issuing the Company's equity (note 12(b)(ii)). Due to a lack of third party evidence of market value, the transaction has been measured at the carrying amount. The Company recorded the cost of the ball mill at the book value of \$712,672 provided by its previous owner and included the difference of \$2,537,328 in deficit.

b. Avocet also provided training assistance to the Company during the year for \$134,048 which was included in mineral properties and accounts payable in 2009. The balance payable was subsequently settled through the issuance of shares (note 12(b)(iii)).

c. George Brazier, a director of the Company, provides general consulting services to the Company. For the year ended June 30, 2010, he earned \$60,000 (2009 - \$30,000) for such services, of which \$5,250 (2009 - \$5,250) was outstanding and included in accounts payable as at June 30, 2010.

d. Lorenzo Trentini was a director of the Company up to March 29, 2009 and provided consulting services to the Company. For the year ended June 30, 2009, he was paid \$33,225 through Base Consultant, a company incorporated in Switzerland, for such services. The service contract was terminated concurrently with his directorship.

All transactions, except for purchase of the ball mill and settlement of debt through the issuance of shares, are in the ordinary course of business and are measured at the exchange amount, which is the amount of consideration established and agreed between the related parties.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

15. Income Tax

The reconciliation of income tax provision computed at statutory rates to the reported income tax provision is as follows:

| | June 30, 2010 | June 30, 2009 |
|--|------------------|------------------|
| Income tax recovery computed at statutory rates | \$ 860,700 | \$ 1,058,200 |
| Lower effective rate attributable to Malaysian income | (3,900) | (36,500) |
| Non-deductible stock-based compensation | (359,000) | (428,400) |
| Non-deductible foreign exchange loss | (84,100) | (8,200) |
| Other non-deductible expenses | (12,300) | (15,000) |
| Share issuance costs deductible for tax purposes | 251,100 | 259,600 |
| Non-business income | (900) | - |
| Unutilized tax losses | (652,401) | (830,733) |
| Reduction in future income tax liability due to statutory rate reduction | 6,900 | - |
| Income tax recovery (expense) | \$ 6,099 | \$ (1,033) |
| Income tax recovery (expense) consists of the following: | | |
| Current tax provision | \$ (801) | \$ (1,033) |
| Future tax provision | 6,900 | - |
| Income tax recovery (expense) | \$ 6,099 | \$ (1,033) |

Future income tax assets and liabilities have been calculated using the following enacted corporate income tax rates: Canada at 25.75% (2009 – 26%) and Malaysia at 25% (2009 – 20%). Significant components of future tax assets and liabilities, after applying enacted corporate income tax rates, are as follows:

| | June 30, 2010 | June 30, 2009 |
|--|---------------|---------------|
| Future income tax liabilities | | |
| Mineral property interests in excess of tax value | \$ (858,400) | \$ (980,400) |
| Property, plant and equipment in excess of tax value | (353,200) | (90,300) |
| | (1,211,600) | (1,070,700) |
| Future income tax assets | | |
| Asset retirement obligation in excess of tax value | 641,600 | 300,500 |
| Share issuance cost carry forwards | 516,500 | 744,400 |
| Loss carry forwards | 2,032,200 | 1,382,200 |
| | 3,190,300 | 2,427,100 |
| Valuation allowance | (2,694,800) | (2,079,400) |
| Net future income tax assets | 495,500 | 347,700 |
| Net future income tax liabilities | \$ (716,100) | \$ (723,000) |

At June 30, 2010, the Company's losses for Malaysian tax purposes are approximately \$961,600 (Malaysian ringgit 2,935,000), that may be carried forward to apply against future income for Malaysian tax purposes. These losses do not expire.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

15. Income Tax (continued)

At June 30, 2010, the Company has non-capital losses available for carry-forward for tax purposes that are available to reduce taxable income of future years in Canada of \$6,958,300. The losses expire as follows:

| | Total |
|------|---------------------|
| 2014 | 19,300 |
| 2025 | 50,900 |
| 2026 | 180,600 |
| 2027 | 1,186,900 |
| 2028 | 861,300 |
| 2029 | 2,506,600 |
| 2030 | 2,152,700 |
| | <u>\$ 6,958,300</u> |

The future benefit of future income tax assets has not been recorded in these consolidated financial statements to the extent that the Company estimates that these assets, more likely than not, will not be realized.

16. Commitments

| | 2011 | 2012 | 2013 | 2014 | 2015 | Total |

| Interest paid | \$ - | \$ - |
| Income taxes paid | \$ 680 | \$ 1,023 |

19. Capital Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue so that it can continue to provide returns for shareholders, and to have sufficient funds on hand to fund its future business acquisition and its gold production at Selinsing Gold Mine, to pursue the exploration and development of its mineral property interests, and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk.

The Company includes the components of shareholders' equity and credit facilities as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Company may issue equity, issue new debt or acquire or dispose of assets.

In order to facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The annual and updated budgets are approved by the Company's Board of Directors.

There were no changes to the Company's approach to capital management during the years ended June 30, 2010 and 2009.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

20. Segment Disclosures

The Company's one reportable operating segment is the exploration, development and operations of mineral property interests, which occur entirely in Malaysia. Geographic information is as follows:

| | June 30, 2010 | June 30, 2009 |
|------------------------------|---------------|---------------|
| Canada | | |
| Property plant and equipment | \$ 24,067 | \$ 35,910 |
| Mineral property interests | \$ - | \$ - |
| Malaysia | | |
| Property plant and equipment | \$ 17,260,162 | \$ 9,564,190 |
| Mineral property interests | \$ 35,824,808 | \$ 47,237,473 |

21. Subsequent Events

a. \$13 Million Financing

On August 11, 2010, the Company closed a private placement of \$8 million in convertible notes (the "Notes") and a \$5 million forward sale of gold (the "Forward Sale").

The Notes have a term of five years and one day from the date of the issuance and must be repaid by the Company at the end of the term in cash at 121.67% of the principal amount. Any early repayment of the Notes will result in a pro-rata adjustment of this repayment amount. The holders of the Notes (the "Noteholders") may, at any time, convert the Notes into units at a price of \$0.40 per unit with each unit comprising one common share of the Company and one common share purchase warrant. Each whole share purchase warrant is exercisable at \$0.50 per share, expiring five years and one day from the date of issuance of the Notes. The conversion price of the units and the exercise price of the warrants are subject to adjustment in accordance with anti-dilution provisions of the Notes and the warrants. Upon conversion, the Company is required to make a cash payment on converted amount to the holder.

In connection with the issuance of the Notes, the Company entered into gold option agreements with each of the Noteholders (the "Option Agreements") whereby the Noteholder has the option to acquire gold from the Company up to an amount equal to the balance of the Note outstanding at the price greater of: (i) \$1,000 per ounce; and (ii) the gold price in US dollars as set by the London PM Fix and converted to Canadian dollars at the noon rate of exchange published by the Bank of Canada on the maturity date of the Notes, less a 5% discount. In addition, as an inducement to enter into the subscription agreement for the Notes, the Company granted Noteholders the option to purchase an aggregate of 5,714 ounces of gold at a price of \$1,000 per ounce and 2,857 ounces of gold at a price of \$1,250 per ounce at any time during the term of the Notes commencing 18 months after closing.

The closing of the Forward Sale resulted in the advance of \$5 million to the Company. Repayment of the advance will be made in gold of 5,000 ounces with adjustment reflecting foreign exchange fluctuations between Canadian dollars and US dollars. The Forward Sale has a term of five years and one day. Warrants for the purchase of 5 million common shares with the same terms as described in connection with the Notes above were issued to the lender on closing. The warrants must be either exercised or otherwise expire on a pro-rata basis within 30 days of the delivery of gold by the Company.

The Company's obligations under the Option Agreements and the Forward Sale are secured by designated gold metal accounts of the Company. In connection with such security, the Company is required to deposit an aggregate of 397 ounces of gold per month from the end of the first month following the earlier of (i) commencement of commercial production of the gold treatment plant of the Company's Malaysian subsidiary for its gold production operation in Malaysia; and (ii) the date that is three months from the closing, up to a maximum 13,000 ounces of gold.

MONUMENT MINING LIMITED

Notes to Consolidated Financial Statements
For the years ended June 30, 2010 and 2009

21. Subsequent Events (continued)

A finder's fee and a financial advisory fee together totaling 10% were paid in cash in connection with the issuance of the Notes and the closing of the Forward Sale.

The Notes, any securities issued upon conversion thereof, the warrants issued in connection with the Forward Sale and any shares issued upon conversion thereof are subject to a hold period and may not be traded in Canada until December 12, 2010, except as permitted by applicable Canadian securities laws and the TSX Venture Exchange.

The funds are to be used for the planned exploration programs; closing acquisition of a prospective exploration property adjacent to Selinsing where the Company's gold treatment plant is located; and for the gold treatment plant extension with a second mill.

b. Famehub Acquisition

On September 13, 2010, the Company closed the Famehub Acquisition by purchasing 100% of Famehub shares for consideration of \$1.5 million in cash and 14 million fully paid common shares of the Company. Subsequent to closing the transaction, total issued and outstanding share capital increased to 170,115,028.

c. Share capital

Subsequent to the year ended June 30, 2010, the Company issued 125,000 fully paid and non-assessable common shares of upon exercise of the stock options. Subsequent to the share issuance, total issued and outstanding share capital increased to 170,240,028.
